Our Mission
Avoiding "toxic" charity where we are not doing for others what they might learn to do for themselves and pay it back by teaching others.

TRIAGE To respond and alleviate urgent and immediate need issues.

PREVENTION To provide resources and support to prevent the reoccurrence of life hurts. Offering a hand up - not a handout.

COMMUNITY Developing long term life skills to become a part of a thriving and flourishing local community where all will have a voice, and all will be heard.
